Description

Specifications for 76FT Vitech Motor Yacht

REBEL May 08

Length overall: 76FT 23.2 m

Beam: 19FT 5.8m

Displacement: approx. 58 tons

Fuel: 8260 liters

Water: 1,000 liters

Engines: Twin CATERPILLAR C15 865HP, diesels

Top speed: around 16 knots

A total of 10 stainless steel cleats, with the necessary hawse pipe are installed on both sides of the boat (incl. 2 retracting cleats on the swimming platform).

Insulation

Soundown insulation below waterline in all areas other than engine room. Extra sound insulation between engine room and master head, master cabin and forward landing and between engine room and aft VIP cabin.

Chain locker

The chains compartment is placed ahead of the watertight collision bulkhead.

On the deck there are two hinged hatches for the inspection of the chain locker. Two fiberglass hanging baskets inside, being able to be lifted by s/s handles. The chain is fixed to the deck beams by means of a quick-release hook, near the hatches openings. The bottom of the chain locker is placed above the waterline and self drains through a scupper aside the stem post.

Anchor system comprises of:

- Maxwell anchor windlass, with controls at both helm stations and water proofed step controls at bow.
- 60 kg SS anchor Plow
- Bow rollers.
- Anchor protection on hull.
- 110 meters anchor chain with first 2 meters in stainless steel.
- Sea water anchor wash with spray nozzles on bow.

Hatches.

An opening hatch, which acts both as an escape hatch, as well as a skylight is positioned over the VIP stateroom. Another escape hatch is located in the dining area, for MSR escape.

Windows, doors, portholes, manhole

All external windows, above deck will be frameless, directly bonded to the fiberglass. Front wind shield is 10 mm tempered glass, plain. Side windows are 6 mm, lightly tinted grey. One galley window can open.

Disclaimer

Our company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his agents and/or surveyors to investigate such details buyer desires validated. This vessel is offered subject to prior sale, price change or withdrawal without notice.

The saloon entrance door from afterdeck has stainless steel frames and tempered lightly tinted glass. The door is manual opened. Stoppers are in position for the door slide when opened.

The aft cabin entry and head doors, the master entry door, the two master head and wardrobe doors are solid timber, with extra thick jams and hinges.

One side door is fitted aside the dinette. The yacht is equipped with stainless steel opening oval shaped portholes. They have 8 millimeters security glass and are all fitted with insect screens.

Handrails

All the handrails are built with 316 grade stainless steel, 50 millimeters diameter on bulwark and 40 millimeters elsewhere. Staunchions are 32 mm and they sit into a station base which is bolted to the top of the bulwark, without plates. Opening of the rail and bulwark sections on the sides of the handrail are provided, for side boarding.

Fly bridge

Molded with PVC foam sandwich, the fly bridge has teak flooring forward of crane, non-skid GRP aft of crane. External furniture and a helm station are also molded in sandwich construction. The fly bridge supports a hard-top and integrated radar arch, with KVH G6 Track vision and Tracphone Satellite domes.

The hardtop has 8 reset down lights and 2 speakers. Two blue color LED night lights under, separately switched on lower helm. Otherwise, the fly bridge has:

- Access hatch & steps from after deck. Stainless with glass
- Access hatch & steps from dinette. Stainless with glass
- High U-frame removable rails on aft section.

Stainless steel #316 handrail with acrylic windshield, extended aft wards to ensure safe rail height GRP helm seat box with electrical height adjustable seat, reversible back support Fiberglass cabinet on aft section, with doors and locker with U-Line Fridge/icemaker and Smeg BBQ with cabinet under for gas bottle and stowage, with vent.

Opecmare model 3010/37, 400Kg crane.

Zodiac 380 Yachtline centre console tender with 40HP Yamaha 4 stroke outboard

Stern flag pole socket

Stairs down to aft deck with blue step LED lights on each step, switched on lower helm

5 underwater lights, Sea Vision model SV10

- Sun bathe cushions
- Removable stainless rail chocks for tender
- Two flood lights to swim platform, switched from aft deck
- PAR remote controlled search light at forward brow, controllers on both stations
- Molded L-shaped sofa with cushion covers to port side.
- Coffee table on SS pedestal.

Upper Helm Station

Power assisted hydraulic steering system off engine pump

Kobelt electronic gear and throttle controls

Stainless steel/teak steering wheel

Start stop engines keys

Audible and visual engine alarms

Engine RPM gauges LCD CAT

Naiad combined bow and stern thruster control panel

Remote windlass control with chain meter

Search light remote control

Marine horn with control on both stations

Magnetic compass

Naiad Stabilizer control

Raymarine:

2 X E120 Multi Display

1 X ST8002 Autopilot Control Head

1 X ST290 Graphic

1 X ST290 Compass

1 X DSM300HD Digital Module

1 X Ray240E VHF Radio

1 X E Series Remote Station Kit with E02009 15"

1 X ST290 Wind Remote Sun View VGA Monitor

ISCAN180 Interphase forward looking sonar display

4 X Raystar 125 SDGPS Antenna

1 X 4KW 6' Open Array Radar System

1 X ST100 Wireless Autopilot Remote

with one base station.

Engines and drive train

Twin Caterpillar C15 with 865HP, diesel

ZF gear box 325A 2.417:1 reduction ratio

PTO on both engines

Engine seawater intake Y-valve bilge system

Fresh water-cooled engines

Double Racor fuel filters

2-3/4" diameter of stainless steel shafts

5 bladed propellers

Main & intermediate stainless steel I struts

Easy accessible shaft logs with Tides shaft seal

Naiad 35 hp hydraulic bow thruster

Naiad 25 hp hydraulic stern thruster

Naiad hydraulic stabilizers

Deck fittings

Bow roller & chain locker with hatch

Salt-water anchor wash down with Xcalibre Head Hunter pump and sprays on bow, switched on lower and upper helm

Fresh water anchor sprays on stainless chain guard, switched on lower and upper helm

Reversible Maxwell VWC3500HT hydraulic anchor windlass with two station controls and chain counters on upper and lower stations

Stainless steel #316 chain strippers with stoppers

Stainless steel #316 cleats on bow, amidships and afterdeck with hawses

Anchor protection stainless steel chafe plate

Rubber rub rail with stainless steel insert

Aft Utility area

Kleenmaid washing machine
Kleenmaid tumble drier
Power and plumbing connections
Vanity with mirror and marble counter top
Granite floor with drain and 2" granite kick board

Steering system

Hydraulic steering by Teleflex, autopilot required
Stainless steel rudders w/stainless steel posts

Engine room and equipment

Watertight engine room bulkheads
Strengthened ceiling with stainless hand rails
Finished face white color
Grey rubber 'button' floor
Sea Chest
Watertight door to engine room with window
Leaded foam with aluminum plates for heat and sound insulation
Extra sound insulation in forward bulkhead
High volume nature engine air ventilation
Engine room intake and extractor fan
Engine exhaust silencers and water cooled exhausts
Engines mounted on quiet and integrally bonded
Engine alarm system for low oil pressure and high temperature
Engines start & stop button
24v lights and 240v lights with switches next to access door
Two sets double GFI 240v Aus. power sockets
Water-cooled exhaust under water and by-pass outlets above water at transom
Cathode protection for gearbox
Gearbox, engines, fuel tanks, fillers, etc. all electrically bonded
Automatic electric bilge pumps with high water level alarm
Wrap exhaust pipe from engines for additional noise and heat insulation
Fire boy fire extinguishing system
Automatic shut off fire system
Cruise Air air-conditioning, 240 volt AC/50HZ reverse cycle with total 120,000 BTU. Individually controlled in each cabin, including air conditioning to all heads and utility areas.
Sound shielded Onan Generator 13.5 kw x 1 (on special rubber mounts)
Sound shielded Onan Generator 22.5 kw x 1. (on special rubber mounts)
Both with split exhaust systems, outlets at the sides of the boat.
Racor fuel / water filters for generators
Cold Fresh water outlet with tap
Reverso Oil Change System- 6 valves, on 2 engines, 2 gear boxes and 2 gensets
Fitting and mounts for generators and accessories
Sump pumps with alarms
Fresh water fill for engines
Engine driven high volume bilge pump

Electrical

ABB Power Source Electro Magnetic Selector Switch

100A Dolphin Power Supply

Color code marine grade wiring systems for easy identification

2X main electrical panels for separate AC power control and AC circuit breaker panel plus earth leakage circuit breaker in dining area/stairways

12V / 24V DC panel with master switches

1 x Mastervolt 30amp 12V battery charger for radio batteries and navigation lights (on fly bridge)

1 x Mastervolt 30amp 12V battery charger for generator batteries

1 x Mastervolt 30amp 24V battery charger for engine batteries

2 x Mastervolt 120A/4000Watt 24V Mass Combi battery charger/inverters for domestic use batteries with digital info system at lower helm (1X Optional)

2 x Mastervolt BI-702 Charging isolator

10x Mastervolt 12/220 gel batteries for domestic system (4X optional)

4 x 200amp dry cell batteries for engines start

1 x 80amp battery for radio and navigation lights (on fly bridge)

2 x 120amp batteries for generators

Enclosed acid-proof fiberglass battery boxes with covers

High quality AC sockets and switches

2 x 50 amp shore power sockets, in port side foredeck locker, with port hole

2X 50 amp shore power sockets on aft

TV antenna wiring system with 5 outlets (saloon, dinette, master, aft VIP, forward cabin and aft deck)

Rope lights on valances

Vacumaider central vacuum system

All ceiling lights Imtra

Sharp high definition colour CCTV system, with switcher on lower helm, 2 x camera in engine room, 1 x aft platform, 1 x aft deck

Plumbing

Aluminum fuel tanks with level sign gauge, separate filler and vents

Stainless steel water tanks with level sign gauge, separate filter and vents

Shore water inlet and connect by fresh water system

2 x 20gallon water heaters

All main pressure pipes 'SHOREFLOW 1"', all branches ½"

2X fresh water 'Headhunter Mach 5' 240 volt pumps, 1 pump for master ensuite and forward VIP ensuite, second pump for aft cabin ensuite, galley, swim platform shower, fresh water deck wash, engine room and garage. Two accumulators.

Over-ride valve system for back-up in case of break-down of one.

Two holding tanks (50gallon aft and 100gallon forward with macerator pump and deck discharge,

Y valve for dockside pump out

All waste points to have Y-valves for overboard drainage

Holding tank gauges on electrical panel

2 X water makers (Sea Recovery Ultra Whisper UW500) on separate sea cocks/strainers and inlet filters (1X optional)

3 X Enclosed grey water holding tanks with pump and automatic float switches

3 x 2000GPH and 2 x 3700GPH electrical bilge pumps with automatic float switches in 4 compartments

Color-coded plumbing system
