Description

Ray White Marine presents PARK LANE, an Australian-delivered 2009 Sunseeker Predator 84 Sports Bridge lying in Sydney Harbour. Her black hull and low, sweeping profile give this 26.48-metre yacht a distinctive presence on the water. With upgraded MTU power and a choice of two helm positions, she offers the pace of a sports yacht with the space to spend several days aboard.

The Sports Bridge puts the skipper in the open air with a commanding view, while the main helm below offers a sheltered position underway. Inside, four guest cabins sleep eight, with separate quarters for crew. The fully equipped aft galley and commercial refrigeration are practical additions whether you're hosting lunch at anchor or provisioning for a longer coastal trip.

Sunseeker Predator 84 | Standard model specifications (twin shaft-drive version)

- Length overall— 26.48 m, including pulpit
- Waterline length— 19.86 m at half load
- Maximum beam— 6.34 m
- Draught— 1.70 m at full load, including propellers
- Displacement— 59.7 tonnes at half load
- Fuel capacity— 7,500 litres
- Freshwater capacity— 1,200 litres
- Propulsion— Twin shaft-drive diesels with fixed-pitch propellers in tunnels

PARK LANE's upgraded twin MTU 16V 2000 diesel engines give her a listed top speed of up to 40 knots. At anchor, zero-speed stabilisers help reduce roll, making it more comfortable to linger over lunch or settle in for the evening. Upgrades to the electronic controls, audiovisual systems and refrigeration complement the original Predator design.

For an owner who enjoys taking the helm as much as entertaining aboard, PARK LANE brings both experiences together. Contact Ray White Marine to arrange a private inspection in Sydney Harbour or request the survey report.
