Description

Ray White Marine New Zealand is proud to offer to the market this outstanding one-off example of the Azimut 55S. This recently upgraded 55S has been meticulously fitted out to suit the New Zealand market and is turn key ready. Presenting in near new condition, this boat is one to be considered for new boat buyers looking to avoid extensive factory build and delivery times.

Powered by triple Volvo IPS600's giving a total of 1305HP, the 55S cruises comfortably between 25-30 Knots with a top speed of 35 Knots. The 3 x 435HP engines are highly efficient in terms of fuel consumption and in creating minimum noise levels and vibration. They also reduce space needed in the engine room to allow for a tender garage, housing the Williams 285 Sportjet tender.

The hydraulic tender garage door doubles as a transom extension. This feature is a sought-after on modern yachts and reminiscent of a superyacht beach club. Fully retractable glass doors open to create a seamless indoor/outdoor flow between the cockpit and saloon. An electronic retractable sunroof and large glass windows create a large open bright and inviting living area. Having the hideaway galley on the starboard side of the saloon maximises cabin space down below. Sleeping arrangements comprise of a full beam double master cabin with en suite, a double forward VIP cabin with direct access to the second bathroom which is shared with a twin cabin.

Skyfall has been professionally managed and maintained by a vessel management company and comes with an extensive list of features and recent upgrades, and is available for viewing in Auckland.

Features

- Electronics converted for NZ waters
- Battery charger x3 (New 2020)
- Inverter (New 2020)
- New house and start batteries (2020)
- Cummins Onan 17.5Kv Genset
