Description

Ubiquity is a fine example of a universal, compact luxury catamaran. Commissioned by an Australian couple, she carried them on a cruise around the world.

The yacht was laid-out and equipped specifically to match the Owner's navigation plans. The interior deck houses a large saloon opening wide onto the aft cockpit and a well-equipped galley. The Owner and VIP cabins are found starboard, down in the hull. The portside hull provides room for a guest cabin and the children's realm - an airy interior with plenty of clever storage. A lot of storage compartments are also available in the boat's exterior and interior spaces to easily access all the food supplies and gear needed for long cruises. One of this yacht's special features is a spectacular aft-placed Jacuzzi.

Easily handled and well equipped with prime navigation gear, Ubiquity proves her worth as a family-friendly and seaworthy catamaran.
