Description

Sunreef Yachts presented the first open catamaran concept in 2014 during the Cannes Yachting Festival. Since that time company's engineers and designers have been developing the concept to achieve the world's most technically advanced multihull luxury speeder available on the market. Applying a multihull design to a day cruiser concept allows for the gain of a massive lounging space and extreme stability at high speeds. Naturally balanced, the 40 Open Sunreef Power doesn't require stabilizing systems and provides a fast and safe navigation experience. The 40 Open Sunreef Power is equipped with dynamic inboard propulsion ranging from 2x435 HP to 2x860 HP to offer an impressive speed potential of over 60kts. A beamy alternative for classic day boats, the 40 Open Sunreef Power represents a new level of onboard comfort. Two lateral aft folding platforms enhance the already generous living space of the catamaran, creating perfect conditions to enjoy watersports. The volume below the aft sunpad conceals immense storage to keep water toys and diving gear at hand. The helm, fitted with echelon seats is well protected and equipped with a touchscreen to easily scroll through the boat's systems. The bow-placed dining area uses the beam of the boat expertly, providing for a maximum of surface with adjustable tables and abundant seating. Depending on the Owner's wish, this part of the deck can be turned into a comfortable cabin perfect for overnight trips. Big volumes are also available down in the boat's hulls to house a bathroom, an additional bedroom or utility room. Premium audio-video systems and individually selected tech gear, custom tailored upholstery and new layout solutions – the options to customize the future 40 Sunreef Powers are limitless.
