Description

Whatever your destination, INFYNITO 80 can make your wishes come true, carrying you unheard of distances and delivering a more intense Just like home experience than ever before. Inspired by explorer vessels, the new model can cruise for long distances both by day and by night.

Thanks to the design of the fast displacement hull, she has a top speed of 20 knots and a range of 500 miles at 15 knots, or 1200 miles at an economy cruising speed of 15 knots.

Stand-out features include the spacious, customisable cockpit, which lets you feel like part of the sea and enjoy every moment, every sound and every shade of blue.

With no more limits and boundaries, the view sweeps far and wide. Boat and horizon come together on the spectacular All-Season Terrace, a true paradise on board for a stunning private experience at any time of year. You choose: a delightful spa with Jacuzzi, a private bar for convivial time in company, or a sophisticated lounge from which to gaze into infinity.

The key features of the interiors are the powerful connection with the outside world and the open-space design, offering a view that ranges far and wide and an even more infinite experience.

Countless options are available to customise this model, so get ready for unprecedented comfort. There are two interior design moods, three main deck layouts, with the possibility for the first time of including a gym for a totally immersive wellbeing experience, and two lower deck arrangements.

You deserve the best. The skylounge, also covered, is available in various configurations and makes INFYNITO 80 the first closed-deck model in the Ferretti Yachts range, offering magnificent views from this vantage point and making sure you feel your best.

Versatility is one of the strengths of this boat, which introduces sustainable materials for the first time and a solar roof to produce renewable energy, marking an exciting new start.
