Description

Pershing GTX70 – The Ultimate Sport Utility Yacht

If the Pershing X-series (6X, 7X, 8X, 9X) represents the performance and thrill of a Lamborghini Aventador or Huracan, the Pershing GTX70 is the Urus— a dynamic blend of power, performance, and luxury in an SUV-style package, offering the same exhilaration but with added versatility for comfortable, long-distance cruising.

The Pershing GTX70 is a high-performance yacht that doesn't just meet expectations — it surpasses them. With its powerful Volvo Penta D13 IPS1200 engines, delivering 900 hp each, this yacht boasts a top speed of 35 knots and a cruising speed of 30 knots. The inclusion of joystick docking makes maneuvering in tight spaces easier, combining luxury and ease of use for a truly elevated experience on the water.

The design of the GTX70 is cutting-edge, combining sleek, modern lines with functionality. The open-plan main deck connects the saloon, galley, and aft cockpit seamlessly, creating a perfect environment for both socializing and relaxation. Below deck, you'll find three luxurious en-suite cabins, with a full-beam master suite providing stunning views and ultimate comfort.

The 16-square-meter flybridge is the perfect place for sunbathing, dining, or steering from an elevated position, while the aft deck features innovative side terraces, expanding your living space and providing direct access to the water. Whether you're hosting guests or enjoying a quiet day at sea, the Pershing GTX70 offers the perfect combination of power and luxury.

The GTX70 is for those who want a yacht that combines top-tier performance with high-end features — the Urus of the Pershing lineup, offering a sporty edge while providing ample comfort and convenience for longer trips.
