Description

Launched in May 2025, this near-new Wallypower 50 delivers everything Wally is known for. Effortless style, serious performance, and a layout designed for enjoying time on the water. Already in New Zealand and ready to go, she offers immediate access without the delay of a new build or the complexity of importing.

As an ultimate day boat, her open and social layout is made for long lunches, island hopping, and afternoons at anchor. Sunpads forward and aft, a central cockpit for lounging and dining, and easy water access create a relaxed, luxurious atmosphere. When the day slows down, she transitions seamlessly into a comfortable overnight escape for two, with an elegant and understated interior.

Powered by twin Volvo IPS engines, she cruises around 30 knots with top speeds close to 36 knots. Joystick control, dynamic positioning, and a Seakeeper stabiliser make handling simple and enjoyable, whether underway or at anchor. Highly specified, she includes upgraded Garmin navigation, premium sound, generator, air conditioning, and stabilisation. At 14.6 metres, she is large enough to host properly yet still easy to manage without crew. Balance of factory warranty is transferrable.

Full Commercial MNZ Survey – A Flexible Option

For buyers who may wish to offset running costs, the existing survey and compliance provides an easy pathway. A professionally managed charter setup is already established and can be continued if desired, offering the potential to purchase plus GST (if applicable) and generate revenue.

For the right buyer, this creates a highly efficient ownership structure:
- Potential to purchase plus GST (if applicable)
- Ability to offset ownership costs through charter revenue
- Professionally managed operation already in place
- Flexibility to use the vessel privately as much as desired

Export Opportunity

For purchasers overseas, the vessel can be sold for export, meaning New Zealand GST does not apply.

A rare chance to secure a near-new Wallypower with built-in flexibility. Enquire now for full details.
