Description

WALLYPOWER50 PROJECT

Blending the best of the wallypower and the iconic wallytender ranges, the new 50 is redefining the genre with its flexibility and lengthy features list.

Every inch the little sister of the successful wallypower58, the new 50 exhibits the same puristic lines. Planar surfaces, flush decks and the incomparable glass-and-carbon dome over the cockpit are the signatures of the range. Drop down wings enlarge the aft deck by a full 6 square metres to offer epic entertaining space, while the aft platform brings the water closer than ever.

Wallytender DNA betrays itself in the extraordinary flexibility the new boat offers – suitable for almost any operational profile. We have replaced the double lounge aft with two separate sunbeds which maximise deck space. Modular seating in the cockpit can provide dining for eight, with the possibility of four more on forward-facing bench seats. Tender, weekender or chase boat – the wallypower50 does it all with aplomb.

An elegant interior is dominated by a supremely comfortable double cabin with Wally's famous Magic Portholes. As well as an impeccable bathroom, the space is complemented by a flexible open area that can be turned to many uses. Overnighting for a couple has never felt so easy.

Performance is a given, just as with every Wally yacht. The twin Volvo IPS650 drives top out at 36 knots, with easy cruising at 30 knots. And add on joystick handling for effortless docking. It's power in the palm of your hand.
